

## STOCK NOTES.

Lumber of Tularosa shipped a load of horses to Mississippi. The shipment comprised all purposes and some mules which he gave around Tularosa.

J. V. May, a well known stockman near Reserve, Socorro county, was in Socorro Thursday on his way home from Fort Scott, Kansas, where he went to market a carload of horses. Mr. May said that the horse market in Kansas is fairly good.

Ellis Connor and Jack Rutland, well known cattle men from the lower Rio Grande, attended court in Silver City last week. Connor and Rutland left for South America several years ago to work cattle. Mr. Rutland returned about a year ago while Mr. Connor pulled in but a few weeks since, and both express themselves well satisfied with New Mexico.

J. V. Latham, the cattle inspector, was returned to Alamogordo from Garfield, where he inspected 869 head of cows, bulls and steers which the W. C. McDonald Cattle company shipped from that station the other day. This makes 1852 head that company has shipped during the past month to Kansas City, and will be all for the present. The principal idea was to get the number of stock on the range reduced. Mr. Latham also inspected a couple of cars of fat stock shipped from Three Rivers by Monroe Harper from his bar O Z ranch up there. They were sent to the Kansas City market.

H. A. Rudolph is back to Las Cruces from his ranch, where he has been rounding up oil cattle.

Walter Birchfield, foreman of the Victoria Land and Cattle company, is in Deming from the lower ranches.

W. F. Antler drove 169 head of cattle and 500 head of sheep to Santa Fe Sunday, which will be slaughtered by the Santa Fe Meat and Livestock company.

Cox Brothers, of Luna county, sold their Sunny Side ranches to Mr. Huntington and have bought the new place of Sam Gregg near Hermanos, where they will move their fine herd of cattle.

H. A. Jastro was in Deming last week looking after the shipping of a lot of cattle which the Victoria Land and Cattle company has purchased of various stock growers in that region.

W. H. Liles, of Socorro, sold Thursday for Victor Sals from the ranges forty miles east of Socorro 5,000 wethers and lambs to Ft. Collins, Colorado, parties. The lambs brought 3 cents a pound.

## WHAT BRANDING MEANS.

How the Horse Feels During the Branding Process.

Now, most steers and all horses object to the branding process, says Sewell Ford in "Horse News." Even the spiritless little Indian ponies, accustomed to many ingenious kinds of abuse, rebel at this. A meek eyed mule, an whom humility rests as an all covering robe, must be properly roped before submitting.

In branding they first get a rope over your neck and shut off your wind. Then they trip your feet by roping your fore legs while you are on the jump. This brings you down hard and with much abruptness. A cowboy sits on your head while others pin you to the ground from various vantage points. Next some one holds a red-hot iron on your rump until it has sunk deep into your skin. That is branding.

The burn of a branding iron is supposed to heal almost immediately. Cowboys will tell you that a horse is always more frightened than hurt during the operation and that the day afterward he feels none the worse. All this you need not credit. A burn is a burn, whether made purposely with a branding iron or by accident in any other way. The scorched flesh puckers and starts. It hurts every time a leg is moved. It seems as if a thousand needles were playing a tattoo on the exposed surface.

Neither is this the worst of the business. To a high strung animal the roping, throwing and burning are a tremendous nervous shock. For days after branding a horse will jump and start, quivering with expectant agony, at the slightest cause.

## NATIONAL GUARD INSPECTION

Communication on the Subject From Assistant Adjutant Pettitt.

An inspection of the National Guard of New Mexico will shortly be made, pursuant to the act of congress entitled "An act to promote the efficiency of the militia and for other purposes."

Adjutant General W. H. Whitman is in receipt of the following communication, which will be of interest to the rank and file of the National Guard of New Mexico. The communication follows:

War Department, office of the Adjutant General, Washington, October 31, 1903.

The Adjutant General, Territory of New Mexico, Santa Fe, New Mexico. Sir—Under section 14 of the act approved January 21, 1903, entitled "An act to promote the efficiency of the militia and for other purposes," it is made the duty of the secretary of war to cause to be made at least once in each year by officers detailed by him for that purpose, an inspection for the purpose of determining whether the organized militia of a state, territory or District of Columbia "is sufficiently armed, uniformed and equipped for active duty in the field," and by section 18 of the same act, to cause an inspection of each company, troop and battery in the organized militia for the purpose of determining whether said state or territory shall be furnished with material for war under the provisions of this

act next preceding each annual meeting of funds in accordance with section 641 of the Revised Statutes, as amended." In consideration of the very limited time between the date of the passage of this act and the end of the fiscal year 1903-4, it was necessary that the inspections for this year should be somewhat hurried, and at a time of the year inconducive to the membership of the great number of organizations in the states and territories; and, although it was taken in arranging the dates, hours and the places of inspection to accommodate them to the usual advocations of the personnel of the militia to save time and expense, the department is not unappreciative of the fact that many of the organizations did not appear at their best.

In order to avoid similar conditions in the inspection for the year 1903-4, and that there may be timely notice to all concerned, the secretary of war desires me to request that after consultation with commanding officers of the various organizations in your territory, you will advise this office as to the dates and places at which most convenient for an inspecting officer of the army to meet each organization.

The department will be pleased to receive a reply to this communication at as early a date as practicable. Very respectfully,

I. S. PETTITT,

Asst. Adjutant General.

## NEW SCHOOL EDIFICE

Pierson Hall, Presbyterian Mission School, is Nearing Completion.

Pierson hall, the new four story building being erected at the grounds of the Presbyterian mission school, is about ready for the lathers. It is a handsome building, designed by Architect E. B. Cristy, and will more than double the capacity of the present popular and flourishing institution.

The hall is named for Miss Pierson, now deceased, who was for years secretary of the Presbyterian Mission board, and took deep personal interest in the mission work in New Mexico, and especially at Albuquerque. The hall will be up to date in every particular of modern convenience and comfort.

J. C. Rosa is general superintendent of the institution, which at present numbers six teachers and eighty pupils.

Pierson hall will be quite an ornament to the city, and an important addition to Albuquerque's educational facilities. The work of the school is confined exclusively to the native children of Mexican descent.

## TO MEET WITH DR. PROBST.

New Mexico Man Will Give His Views on Tuberculosis Treatment.

A. R. Gibson of Santa Fe, who is interested in a sanitarium for consumptives in New Mexico, is in the city for a few days, stopping at the Neil, says the Columbus, Ohio, State Journal.

The Sunmount Tent City, which is the name of Mr. Gibson's resort for tubercular patients, embodies many new ideas in the treatment of consumptives, and hence Mr. Gibson has been in demand for advice from all quarters where tubercular sanitariums are to be established. Dr. Probst of this city has been in correspondence with Mr. Gibson.

Sunmount Tent City is built near Santa Fe, on a piece of ground 7,000 feet above sea level.

## HARVARD PROFESSOR

Death Occurred at Kingman, Arizona, the Other Day.

Frank Russell, professor of anthropology at Harvard university, died Saturday morning in Kingman of tuberculosis, after an illness of more than a year. His wife was with him when the end came, says the Kingman Miner.

Frank Russell was born in Fe, Iowa, August 28, 1868. He was graduated from the University of Iowa in June, 1892. From that time until 1895 he was engaged in scientific exploration and published a report of considerable interest entitled, "Explorations in the Far North." In the following year he took the degree of bachelor and master of arts and doctor of philosophy at Harvard, his preparation including some study in German university, and in 1899 was appointed permanent member of the Harvard faculty of arts and sciences.

In the spring of 1901 he was given a year's leave of absence on account of ill health and spent the time in archaeological and ethnological investigations in Arizona for the bureau of ethnology. In October, 1902, he resumed his work in the department of anthropology at Harvard, but was obliged to again give up the work at the end of the year. He was a prominent member of the American Association for the Advancement of Science and served a term as president of the American Folk Lore society. He published several scientific monographs and left the MSS a joint edition of Syrian Somatology (with Professor Huxley) and a report on the Pima Indians for the bureau of ethnology.

His body will be taken to Los Angeles for cremation.

Professor Russell came to Mohave county some months ago in the hope of regaining his health, but the ravages of the disease could not be stayed.

## WRECK NEAR ARGONIA.

Santa Fe Passenger Goes into the Ditch.

No. 201 the westbound passenger on the Southern Kansas or Panhandle branch of the Santa Fe, went into the ditch one and a half miles east of Argonia, Kas., Sunday night. All of the cars left the track while the engine remained thereon. One man was seriously injured by jumping from the window as the car left the track.

The train was running at a rate of about twenty miles an hour when a loose rail slipped between the engine and tender, breaking them apart, and tender, mail car, baggage car, two

the ditch. The train was in charge of Conductor Tommy Ryan and Engineer Hansen. The wrecking crew with Superintendent Whisenand and Trainmaster Dowell left at once from Weirton, but the wreck was not cleared until nearly noon Monday.

## MAN EVERY TWO MILES.

Rock Island Track is Guarded for Thirty Miles.

It is common talk among the detectives at Des Moines, Ia., working upon the Rock Island hold-up case that the Chicago office of the railway has received another threatening letter and that within the last two or three days. When pinned down to make some definite statement each man refused to make known any information he may be in possession of.

The right of way between Des Moines and Earlham, thirty miles, is still being patrolled, a man being stationed every two miles. Each guard walks up and down his beat the whole night long.

The two suspects detained are not seriously regarded as having any connection with the affair.

## OFFICIAL MATTERS

### Articles of Incorporation.

The following articles of incorporation were filed in the office of Territorial Secretary J. W. Reynolds: The Honcho company, principal offices at Roswell, Chaves county. The incorporators are Edward A. Cahoon, James A. Cottingham and John R. Hodges all of Roswell. The company is incorporated for fifty years, and is authorized to manufacture drugs, chemicals, patent and proprietary medicines, perfumes, extracts, syrups, druggists and confectioners supplies and sundries, and dispose of the same. The company is capitalized at \$20,000 divided into 2,000 shares of the par value of \$10 each. The first board of directors consists of the three incorporators.

### Clearing Postponed.

The hearing of the case of the Santa Fe Water & Light company against John L. Zimmerman who recently made a homestead entry upon part of the land which has been owned and used by the Santa Fe Water & Light company for many years for its reservoir site, will not take place at the land office until the 24th of this month. The company is paying no attention to Zimmerman's actions in the matter, but is going on with its improvements.

### Territorial Funds Received.

Territorial Treasurer J. H. Vaughn has received the following public funds: From Joan C. Plemons, treasurer and ex-officio collector of Sierra county, \$4.94, taxes for 1902. From H. O. Bureau, superintendent of the New Mexico penitentiary, \$899.35, convicts' earnings.

### Commissioners of Deeds.

Governor M. A. Otero has appointed the following commissioners of deeds: James L. King, commissioner of deeds for New Mexico in California, with offices in San Francisco; George Eugene Bryson, commissioner of deeds for New Mexico in Cuba, with offices in Havana.

Grading is progressing on the site of the union depot at El Paso. This grading contract was let to Frank Powers, an El Paso contractor, for \$60,000. The damaged to adjacent property will amount to fully the same amount; and this is in addition to the cost of the depot itself, estimated at \$200,000.

### WRECK COST \$150,000.

Santa Fe Sustained Heavy Loss in Pueblo Disaster.

The wreck of the Chicago flyer near Pueblo, Colo., some days ago cost the Santa Fe company in wrecked equipment about \$150,000. Engineer John Walker is the only one whose life was lost as a result of the wreck, he dying afterward at the La Junta hospital. Walker had asked for a lay-off, and the reply from headquarters granting it was received just as the train was due to leave Denver, so he stuck to his post. He had been in the employ of the Santa Fe about thirty years, and was considered an engineer of exceptional merit. His friend, J. F. Bates, escaped without injury.

### LIKE NEW MEXICO

General Warner of Washington Sees Many Improvements All Over the Territory.

General B. J. Warner of Washington, D. C., who with his daughter visited Albuquerque and made a tour through New Mexico about two months ago, upon his return to the national capital made an interesting talk to a Star reporter on what he saw in New Mexico and also in the Republic of Mexico. From this interview the following extracts are taken:

"I have not been in New Mexico for nearly 20 years, and I saw a wonderful improvement in the condition of the farms, towns and cities, all along the line. The farm lands are better fenced, there are more trees, and houses and outbuildings have more paint on them. In every way rural life is made more attractive and one of the most important features is the improvement in the roads. Agriculture is more appreciated and is doing a great deal in the suggestion it gives as to suitability and profitability of crops for certain conditions of soil and climate. I was much gratified to hear of the popularity of this department in all localities.

"The great questions now in New Mexico, Colorado and Texas, as well as other far western states and territories, is irrigation, and that is now being handled and developed by the government. Millions of acres of land at present without value because of want of water, will be made enormous ly productive within the next few years by the irrigation schemes now being undertaken."

It is expected that work will begin this week on this viaduct at Barstow over the Santa Fe tracks.

## TRUSTEE'S NOTICE OF SALE.

Whereas, Ricardo Abeyta and Lola Z. de Abeyta, his wife, of Socorro county, in and by a certain deed of trust, dated the 29th day of January, 1903, and recorded in the office of the probate clerk and ex-officio recorder of said Socorro county, in volume 46 of mortgage records, pages 599 to 601 inclusive, did execute and deliver to the undersigned, M. W. Flournoy, as trustee, their certain deed of trust of that date, and thereby, then and there, conveyed to the said Flournoy the following real estate situated in the county of Socorro, New Mexico, to-wit:

A tract of land known as the ranch of Los Ojitos in the Limar mountains.

And, whereas, said deed of trust was made to secure the payment of a certain promissory note of even date therewith for the sum of \$13,579.86, payable in six months after date to the First National bank of Albuquerque, together with interest at the rate of 10 per cent per annum and 10 per cent additional on the amount unpaid if placed for collection in the hands of an attorney, and signed by Abran Abeyta and Ricardo Abeyta;

And, whereas, said promissory note is long past due, and there remains due and unpaid the sum of \$8,699.42, with interest from the 14th day of September, 1903;

And, whereas, said deed of trust contained a provision that in case of default in the payment of said promissory note, or any part thereof, then, on application in writing of the legal holder of said note, the said Flournoy, as said trustee, should sell and dispose of the above described premises, and all right, title, benefit and equity of redemption of the said Ricardo Abeyta and wife, their heirs and assigns therein, at public auction at the front door of the court house in the town and county of Socorro aforesaid, or on the premises, as might be specified in the notice of said sale, for the highest and best price the same will bring in cash, four weeks' notice having been previously given of the time and place of said sale, by advertising in some newspaper published in the city of Albuquerque, and to make, execute and deliver to the purchaser at such sale a good and sufficient deed for said premises;

Now, therefore, on application in writing of the legal holder of said note, and in accordance with the terms of said deed of trust, for the purpose of paying the principal and interest, amounting at the date of sale hereinafter mentioned to the sum of \$8,943.00, and all costs and expenses attending the execution of said deed of trust, including costs of advertising sale and conveyance and a reasonable fee for the said trustee and his solicitor already provided to be paid in said deed of trust, I, the undersigned trustee, on the 7th day of December, 1903, at the hour of ten o'clock in the forenoon at the front door of the county court house of the county of Socorro in the city of Socorro aforesaid, will sell the above described real estate at public auction to the highest and best bidder for cash.
